SUMMARY

Backend-focused WordPress Plugin Developer with 4+ years of experience shipping commercial plugins active on 20,000+ sites worldwide. Expert in OOP PHP, Gutenberg block development, REST API integration, and payment gateway engineering (70+ gateways). WordPress Core Contributor, credited on the 6.8 and 6.9 releases, with a growing background in SaaS platform development.

TECHNICAL SKILLS

WordPress: Core, Plugin & Theme Dev, Gutenberg Blocks, Custom Post Types, Taxonomies, Hooks & Filters, VIP Standards

Languages: PHP (OOP), JavaScript (ES6+), TypeScript, React JS, jQuery, HTML5, CSS3/SCSS

WooCommerce: Checkout & cart customisation, order meta via CRUD (HPOS-safe), custom admin screens, CSV export

Backend: NestJS, REST API Design, PostgreSQL, WP-CLI, Secure Coding Patterns

Payments: PayPal, Stripe, Paddle, Square, Flutterwave, PayU, Midtrans, WooCommerce Payments and 60+ other gateways

Tools: Git (GitHub / GitLab), Docker, CI/CD Pipelines, Composer, Postman, PHPStorm

AI & APIs: ChatGPT API, TogetherAI API, RESTful API Integration

EXPERIENCE

Backend Developer / WordPress Plugin Developer

May 2021 – Present

Codewing Solutions · Kathmandu, Nepal

- Led WP Delicious (4,000+ installs) and WP Travel Engine — plugins active on 20,000+ WordPress sites worldwide.
- Architected scalable plugins in OOP PHP following WordPress VIP coding standards for security and performance.
- Built reusable, accessible Gutenberg blocks with React JS — dynamic registration, InnerBlocks, custom attributes, and form editor.
- Engineered 70+ global payment gateway integrations (Stripe, PayPal, Paddle, Square, Flutterwave, PayU, Midtrans) with secure cross-border handling.
- Automated recipe and image generation via ChatGPT and TogetherAI APIs, boosting content production efficiency.
- Delivered advanced features: partial/installment payments, itinerary builder, custom post types, and structured content models.
- Contributing to a multi-gateway SaaS platform that bridges WordPress plugins with global payment gateways.

PROJECTS

WP Travel Engine wordpress.org/plugins/wp-travel-engine — Enterprise travel booking plugin — custom CPTs, REST API, itinerary builder, partial payments.

Delicious Recipes wordpress.org/plugins/delicious-recipes — Recipe plugin with AI-powered automation via ChatGPT & TogetherAI. 4,000+ active installs.

NGS Congress – Registration Add-ons (private client plugin) — Custom WooCommerce extension for the Nepal Geological Society: category-driven delegate registration fields resolved server-side, document uploads with admin approval, HPOS-safe order meta, CSV export, and a custom-post-type abstract review queue with automated author emails.

Delisho – Recipe Blocks wordpress.org/plugins/dr-widgets-blocks — Accessible Gutenberg block library extending Delicious Recipes with WCAG-compliant output.

WP Travel Engine Add-ons wptravelengine.com/plugins — Premium add-on suite — Paddle PGW, partial payments, trip extras, React JS admin UI.

PayLexer paylexer.com — SaaS platform connecting WordPress plugins to global payment gateways without custom development.

EDUCATION

Bachelor of Computer Application (BCA)

Nov 2018 – Feb 2024

Danfe College · Kathmandu, Nepal
